# Self-Catering Cottages

Our self-catering holiday cottages are refurbished to a high standard and unlike many other self catering holiday cottages in the area (booked through Agencies, AirBnB etc), these cottages and the bed & breakfast are our businesses and not second homes, we do all the cleaning and maintenance to ensure that they are of the highest standards. So #bookdirect for the best prices. We include all linen (ie sheets with beds made up for you, towels, T towels, oven gloves etc.) and electricity/heating (**subject to fair use**) in our prices. We also provide a 'Starter - Welcome Pack' consisting of bread, milk, butter, tea, coffee, sugar, free range eggs, plus soap, kitchen roll, toilet paper, washing up liquid and where appropriate dishwasher tablets. All we ask is that you bring your own beach towels and detergent if you feel like washing! In addition there are washing, ironing and drying facilities available (with a small donation requested for the tumble dryers) and a welly shower loo for the hardy hiker or ardent cyclist. Additional freezer space is available and in our barn (a farming/rustic setting!) a coin operated sauna bath, pool table, table tennis and under cover storage for bicycles etc or for drying wet suits. We offer short breaks, during the off-peak weeks based on a percentage of the weekly rate, as well as a couples discount on our larger cottages.
